Then baseball season came. I was the smallest guy again, but playing baseball in Camp had made me a lot better. The other guys saw that I was a pretty good player. They started calling me "Shorty," but they smiled when they said it.

By the time the first game came around, I felt almost like part of the team. Everyone was laughing and horsing around on the bus. But as soon as we got out there, it hit me: nobody on my team or the other team, or even anybody in the crowd looked like me.

When we walked out onto the field, my hands were shaking. I felt like all these mean eyes were staring at me, wanting me to make mistakes. I dropped the ball that was thrown to me, and I heard people in the crowd yelling "Jap." I hadn't heard that word since before I went to Camp—it meant that they hated me.

$$\frac{17}{159} = \frac{x}{100}$$

$$\frac{17}{159} = \frac{17 \times 100}{159}$$
